(1) Step 1

Open this link <https://developer.linkedin.com/>

(2) Step 2

Create App

- LinkedIn provide three data API for developer

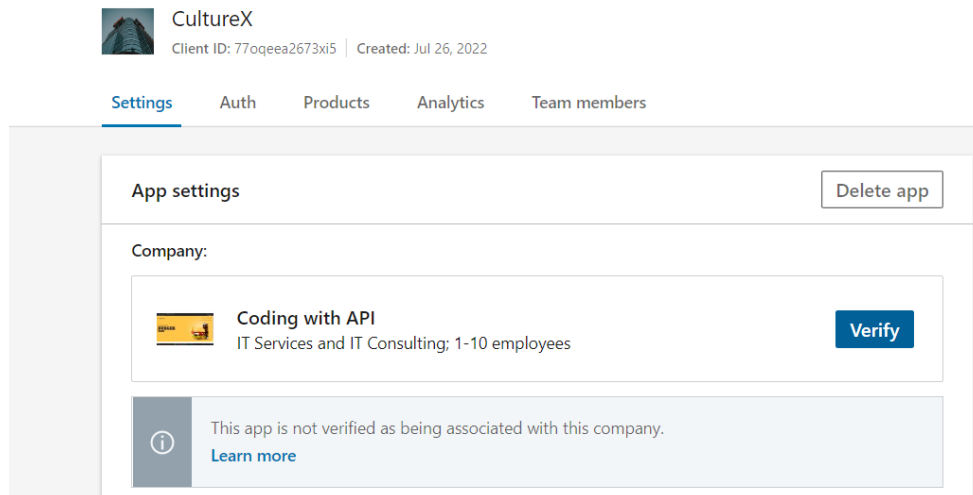

The screenshot displays the LinkedIn Developer products page. It features three main product cards, each with an icon, a title, a description, and links to documentation and endpoints. The first card is for 'Share on LinkedIn', the second for 'Sign In with LinkedIn', and the third for 'Marketing Developer Platform'. Below these cards, there is a section titled 'Additional available products' which contains the 'Marketing Developer Platform' card again, but with a 'View access form' link instead of 'View endpoints'.

Product	Description	View docs	View endpoints	View access form
Share on LinkedIn	Amplify your content by sharing it on LinkedIn	View docs	View endpoints	
Sign In with LinkedIn	Let users easily sign in with their professional identity	View docs	View endpoints	
Marketing Developer Platform	Build marketing experiences to reach the right audiences	View docs	View endpoints	View access form

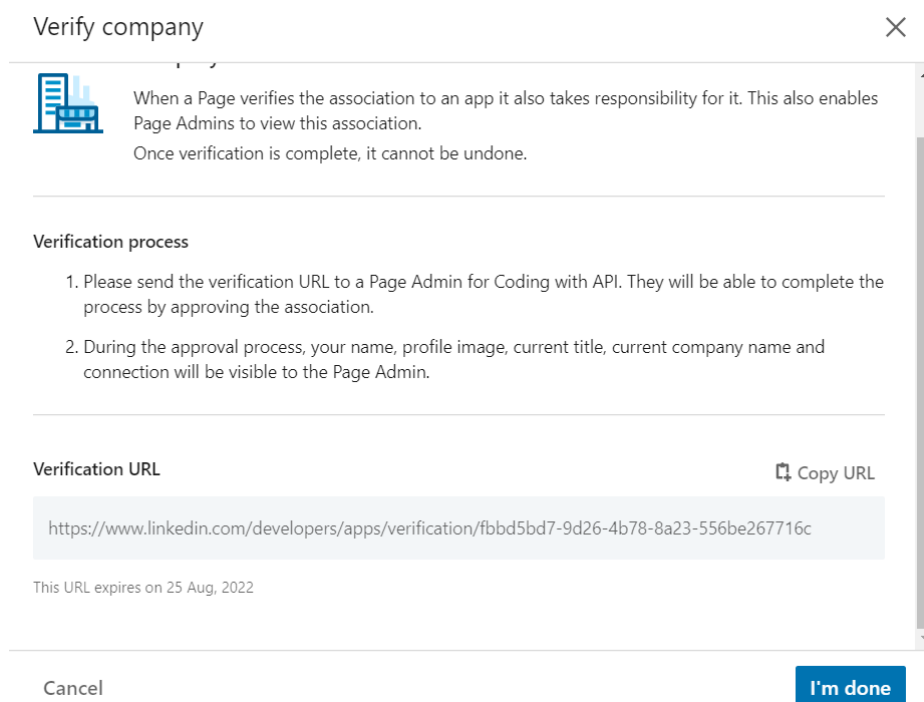

(3) Step 3

Go to the setting and verify the App

(4)Step 4

Generate the URL

(5)Step 5

Sign in with LinkedIn

- Required parameter
